PREFACE

The Commission for the Conservation of Antarctic Marine Living Resources is an intergovernmental organisation established by an international convention. The Commission, assisted by the Scientific Committee also established under the Convention, is responsible for developing measures necessary for the conservation of the marine life of the Southern Ocean surrounding Antarctica.

The negotiation of the Convention was initiated by the Antarctic Treaty Consultative Parties following reports of scientific studies expressing concern that unregulated fishing of Antarctic species, especially krill, could result in irreversible damage to the populations of other species in the Antarctic marine ecosystem.

In 1977 at the Eighth Meeting, the Antarctic Treaty Consultative Parties decided to seek agreement to a wide-ranging conservation convention which would deal not only with the direct effects of harvesting specific organisms, but also with the indirect effects of exploitation on other species. Following a number of diplomatic and scientific conferences, the Convention on the Conservation of Antarctic Marine Living Resources was drawn up at a special meeting on 20 May 1980 in Canberra, Australia, and signed by the following States: Argentina, Australia, Belgium, Chile, France, German Democratic Republic, Federal Republic of Germany, Japan, New Zealand, Norway, Poland, Republic of South Africa, Union of Soviet Socialist Republics, United Kingdom of Great Britain and Northern Ireland, and United States of America.

By 8 March 1982, eight of the original signatory States, including two that were fishing in the Convention Area, had ratified the Convention, thus fulfilling the requirements of the Convention to enter into force. The Convention entered into force on 7 April 1982, and the Commission commenced operation in July 1982.

The other seven original signatory States have subsequently ratified the Convention and become Members of the Commission.

Since 1982, Brazil, People's Republic of China, European Community, India, Italy, Republic of Korea, Namibia, Spain, Sweden, Ukraine and Uruguay have satisfied the conditions of the Convention to become Members of the Commission. In total there are now 25 Members of the Commission and nine other States have acceded to the Convention but are not Members of the Commission, namely Bulgaria, Canada, Cook Islands, Finland, Greece, Mauritius, Netherlands, Peru and Vanuatu.

**STATEMENT BY THE CHAIRMAN
OF THE CONFERENCE ON THE CONSERVATION
OF ANTARCTIC MARINE LIVING RESOURCES**

CONVENTION ON THE CONSERVATION OF ANTARCTIC MARINE LIVING RESOURCES

The Contracting Parties,

RECOGNISING the importance of safeguarding the environment and protecting the integrity of the ecosystem of the seas surrounding Antarctica;

NOTING the concentration of marine living resources found in Antarctic waters and the increased interest in the possibilities offered by the utilisation of these resources as a source of protein;

CONSCIOUS of the urgency of ensuring the conservation of Antarctic marine living resources;

CONSIDERING that it is essential to increase knowledge of the Antarctic marine ecosystem and its components so as to be able to base decisions on harvesting on sound scientific information;

BELIEVING that the conservation of Antarctic marine living resources calls for international co-operation with due regard for the provisions of the Antarctic Treaty and with the active involvement of all States engaged in research or harvesting activities in Antarctic waters;

RECOGNISING the prime responsibilities of the Antarctic Treaty Consultative Parties for the protection and preservation of the Antarctic environment and, in particular, their responsibilities under Article IX, paragraph 1(f) of the Antarctic Treaty in respect of the preservation and conservation of living resources in Antarctica;

RECALLING the action already taken by the Antarctic Treaty Consultative Parties including in particular the Agreed Measures for the Conservation of Antarctic Fauna and Flora, as well as the provisions of the Convention for the Conservation of Antarctic Seals;

BEARING in mind the concern regarding the conservation of Antarctic marine living resources expressed by the Consultative Parties at the Ninth Consultative Meeting of the Antarctic Treaty and the importance of the provisions of Recommendation IX-2 which led to the establishment of the present Convention;

Convention

BELIEVING that it is in the interest of all mankind to preserve the waters surrounding the Antarctic continent for peaceful purposes only and to prevent their becoming the scene or object of international discord;

RECOGNISING, in the light of the foregoing, that it is desirable to establish suitable machinery for recommending, promoting, deciding upon and co-ordinating the measures and scientific studies needed to ensure the conservation of Antarctic marine living organisms;

HAVE AGREED as follows:

ARTICLE I

1. This Convention applies to the Antarctic marine living resources of the area south of 60° South latitude and to the Antarctic marine living resources of the area between that latitude and the Antarctic Convergence which form part of the Antarctic marine ecosystem.

2. Antarctic marine living resources means the populations of fin fish, molluscs, crustaceans and all other species of living organisms, including birds, found south of the Antarctic Convergence.

3. The Antarctic marine ecosystem means the complex of relationships of Antarctic marine living resources with each other and with their physical environment.

4. The Antarctic Convergence shall be deemed to be a line joining the following points along parallels of latitude and meridians of longitude:

50°S, 0°; 50°S, 30°E; 45°S, 30°E; 45°S, 80°E; 55°S, 80°E; 55°S, 150°E; 60°S, 150°E; 60°S, 50°W; 50°S, 50°W; 50°S, 0°.

ARTICLE II

1. The objective of this Convention is the conservation of Antarctic marine living resources.

2. For the purposes of this Convention, the term 'conservation' includes rational use.

3. Any harvesting and associated activities in the area to which this Convention applies shall be conducted in accordance with the provisions of this Convention and with the following principles of conservation:

- (a) prevention of decrease in the size of any harvested population to levels below those which ensure its stable recruitment. For this purpose its size should not be allowed to fall below a level close to that which ensures the greatest net annual increment;
- (b) maintenance of the ecological relationships between harvested, dependent and related populations of Antarctic marine living resources and the restoration of depleted populations to the levels defined in sub-paragraph (a) above; and
- (c) prevention of changes or minimisation of the risk of changes in the marine ecosystem which are not potentially reversible over two or three decades, taking into account the state of available knowledge of the direct and indirect impact of harvesting, the effect of the introduction of alien species, the effects of associated activities on the marine ecosystem and of the effects of environmental changes, with the aim of making possible the sustained conservation of Antarctic marine living resources.

ARTICLE III

The Contracting Parties, whether or not they are Parties to the Antarctic Treaty, agree that they will not engage in any activities in the Antarctic Treaty area contrary to the principles and purposes of that Treaty and that, in their relations with each other, they are bound by the obligations contained in Articles I and V of the Antarctic Treaty.

ARTICLE IV

1. With respect to the Antarctic Treaty area, all Contracting Parties, whether or not they are Parties to the Antarctic Treaty, are bound by Articles IV and VI of the Antarctic Treaty in their relations with each other.

2. Nothing in this Convention and no acts or activities taking place while the present Convention is in force shall:

Convention

- (a) constitute a basis for asserting, supporting or denying a claim to territorial sovereignty in the Antarctic Treaty area or create any rights of sovereignty in the Antarctic Treaty area;
- (b) be interpreted as a renunciation or diminution by any Contracting Party of, or as prejudicing, any right or claim or basis of claim to exercise coastal state jurisdiction under international law within the area to which this Convention applies;
- (c) be interpreted as prejudicing the position of any Contracting Party as regards its recognition or non-recognition of any such right, claim or basis of claim;
- (d) affect the provision of Article IV, paragraph 2, of the Antarctic Treaty that no new claim, or enlargement of an existing claim, to territorial sovereignty in Antarctica shall be asserted while the Antarctic Treaty is in force.

ARTICLE V

1. The Contracting Parties which are not Parties to the Antarctic Treaty acknowledge the special obligations and responsibilities of the Antarctic Treaty Consultative Parties for the protection and preservation of the environment of the Antarctic Treaty area.

2. The Contracting Parties which are not Parties to the Antarctic Treaty agree that, in their activities in the Antarctic Treaty area, they will observe as and when appropriate the Agreed Measures for the Conservation of Antarctic Fauna and Flora and such other measures as have been recommended by the Antarctic Treaty Consultative Parties in fulfilment of their responsibility for the protection of the Antarctic environment from all forms of harmful human interference.

3. For the purposes of this Convention, 'Antarctic Treaty Consultative Parties' means the Contracting Parties to the Antarctic Treaty whose Representatives participate in meetings under Article IX of the Antarctic Treaty.

ARTICLE VI

Nothing in this Convention shall derogate from the rights and obligations of Contracting Parties under the International Convention for the Regulation of Whaling and the Convention for the Conservation of Antarctic Seals.

ARTICLE VII

1. The Contracting Parties hereby establish and agree to maintain the Commission for the Conservation of Antarctic Marine Living Resources (hereinafter referred to as 'the Commission').

2. Membership in the Commission shall be as follows:

- (a) each Contracting Party which participated in the meeting at which this Convention was adopted shall be a Member of the Commission;
- (b) each State Party which has acceded to this Convention pursuant to Article XXIX shall be entitled to be a Member of the Commission during such time as that acceding Party is engaged in research or harvesting activities in relation to the marine living resources to which this Convention applies;
- (c) each regional economic integration organisation which has acceded to this Convention pursuant to Article XXIX shall be entitled to be a Member of the Commission during such time as its States members are so entitled;
- (d) a Contracting Party seeking to participate in the work of the Commission pursuant to sub-paragraphs (b) and (c) above shall notify the Depositary of the basis upon which it seeks to become a Member of the Commission and of its willingness to accept conservation measures in force. The Depositary shall communicate to each Member of the Commission such notification and accompanying information. Within two months of receipt of such communication from the Depositary, any Member of the Commission may request that a special meeting of the Commission be held to consider the matter. Upon receipt of such request, the Depositary shall call such a meeting. If there is no request for a meeting, the Contracting Party submitting the notification shall be deemed to have satisfied the requirements for Commission Membership.

Convention

3. Each Member of the Commission shall be represented by one representative who may be accompanied by alternate representatives and advisers.

- (d) in the event that any Member of the Commission invokes the procedure set forth in sub-paragraph (c) above, the Commission shall meet at the request of any Member of the Commission to review the conservation measure. At the time of such meeting and within thirty days following the meeting, any Member of the Commission shall have the right to declare that it is no longer able to accept the conservation measure, in which case the Member shall no longer be bound by such a measure.

ARTICLE X

2. The Commission shall draw the attention of all Contracting Parties to any activity which, in the opinion of the Commission, affects the implementation by a Contracting Party of the objective of this Convention or the compliance by that Contracting Party with its obligations under this Convention.

ARTICLE XI

The Commission shall seek to co-operate with Contracting Parties which may exercise jurisdiction in marine areas adjacent to the area to which this Convention applies in respect of the conservation of any stock or stocks of associated species which occur both within those areas and the area to which this Convention applies, with a view to harmonising the conservation measures adopted in respect of such stocks.

ARTICLE XII

1. Decisions of the Commission on matters of substance shall be taken by consensus. The question of whether a matter is one of substance shall be treated as a matter of substance.
2. Decisions on matters other than those referred to in paragraph 1 above shall be taken by a simple majority of the Members of the Commission present and voting.
3. In Commission consideration of any item requiring a decision, it shall be made clear whether a regional economic integration organisation will participate in the taking of the decision and, if so, whether any of its Member States will also participate. The number of Contracting Parties so participating shall not exceed the number of Member States of the regional economic integration organisation which are Members of the Commission.
4. In the taking of decisions pursuant to this Article, a regional economic integration organisation shall have only one vote.

STATEMENT BY THE CHAIRMAN OF THE CONFERENCE ON THE CONSERVATION OF ANTARCTIC MARINE LIVING RESOURCES

The Conference on the Conservation of Antarctic Marine Living Resources decided to include in the publication of the Final Act of the Conference the text of the following statement made by the Chairman on 19 May 1980 regarding the application of the Convention on the Conservation of Antarctic Marine Living Resources to the waters adjacent to Kerguelen and Crozet over which France has jurisdiction and to waters adjacent to other islands within the area to which this Convention applies over which the existence of State sovereignty is recognised by all Contracting Parties.

‘1. Measures for the conservation of Antarctic marine living resources of the waters adjacent to Kerguelen and Crozet, over which France has jurisdiction, adopted by France prior to the entry into force of the Convention, would remain in force after the entry into force of the Convention until modified by France acting within the framework of the Commission or otherwise.

2. After the Convention has come into force, each time the Commission should undertake examination of the conservation needs of the marine living resources of the general area in which the waters adjacent to Kerguelen and Crozet are to be found, it would be open to France either to agree that the waters in question should be included in the area of application of any specific conservation measure under consideration or to indicate that they should be excluded. In the latter event, the Commission would not proceed to the adoption of the specific conservation measure in a form applicable to the waters in question unless France removed its objection to it. France could also adopt such national measures as it might deem appropriate for the waters in question.

3. Accordingly, when specific conservation measures are considered within the framework of the Commission and with the participation of France, then:

- (a) France would be bound by any conservation measures adopted by consensus with its participation for the duration of those measures. This would not prevent France from promulgating national measures that were more strict than the Commission’s measures or which dealt with other matters;
- (b) in the absence of consensus, France could promulgate any national measures which it might deem appropriate.

4. Conservation measures, whether national measures or measures adopted by the Commission, in respect of the waters adjacent to Kerguelen and Crozet, would be enforced by France. The system of observation and inspection foreseen by the Convention would not be implemented in the waters adjacent to Kerguelen and Crozet except as agreed by France and in the manner so agreed.

5. The understandings, set forth in paragraphs 1 to 4 above, regarding the application of the Convention to waters adjacent to the islands of Kerguelen and Crozet, also apply to waters adjacent to the islands within the area to which this Convention applies over which the existence of State sovereignty is recognised by all Contracting Parties.'

No objection to the statement was made.

6. The Government shall treat representatives with all due respect and shall take all necessary measures to prevent encroachment on their person, freedom and dignity. - (f) shall be exempt from all taxes on income received from the Commission; exemption from taxation on income under this sub-paragraph shall not apply to staff members who are residents of Australia for services rendered in Australia, unless the staff member is not an Australian citizen and came to Australia solely for the purpose of performing his duties for the Commission; and

In addition, the Australian Government will facilitate for such persons speedy travel within Australia.

**ARTICLE 20

TO STAFF MEMBERS AND EXPERTS**

1. Privileges and immunities are accorded to staff members and experts to ensure the independence of the persons to whom they are accorded in the exercise of their functions to achieve the purposes of the Convention.

2. The Executive Secretary has the right and duty after consultations with the Members of the Commission to waive any immunities, other than his own, and those of his spouse and dependent children under the age of eighteen years, when he considers that such immunities would impede the course of justice and they can be waived without prejudicing the purposes for which they were accorded. The immunities of the Executive Secretary and those of his spouse and dependent children under the age of eighteen years may be waived only by the Commission, in similar circumstances.

3. If such immunities are not waived, the Commission shall make the strongest efforts to achieve an equitable solution of the matter. Such a solution may include an arbitration procedure.

**ARTICLE 21

This card shall be accepted by the appropriate authorities as evidence of identity and appointment. The Commission shall return the card to the Government when the staff member or expert relinquishes his duties. The spouse and dependent children under the age of eighteen years of staff members shall also be issued with an identity card, which shall be returned to the Government when the staff member relinquishes his duties.

² *Officers of the Commission*

Under paragraph 4 of Article XIII of the Convention, the Commission elected from among its Members Australia to be its first Chairman and Japan to be its first Vice-Chairman. In reaching these decisions the Commission noted the outstanding contribution made by Australia in bringing the Convention into effect, that Australia had acted as host government to the first Antarctic Treaty Consultative Meeting in 1961 and the precedent provided by other international organisations in which the first chairmanship had been accorded to the host government.

Regarding the election of the Chairman of the Commission in future, the Commission noted the benefits to be derived from an arrangement which would ensure an automatic election of all Members of the Commission to that office. Therefore it was decided that, after the Australian term, the Chairmen would in succession be the Members of the Commission in the order of their names arranged alphabetically in the English language.

Furthermore, the Commission agreed that, insofar as was feasible within the arrangement for staggered terms of office foreseen in paragraph 4 of Article XIII, the election as Chairman of a Member of the Commission not engaged in research or harvesting activities, should be balanced by the election to the Vice-Chairmanship of a Member of the Commission engaged in such activities.

RULE 11

The Chairman shall have the following powers and responsibilities:

- (a) convene the regular and extraordinary meetings of the Commission;
- (b) preside at each meeting of the Commission;

- (e) put questions and notify the Commission of the results of votes;
- (f) approve a Provisional Agenda for the meeting after consultation with representatives and the Executive Secretary;
- (g) sign, on behalf of the Commission, the reports of each meeting for transmission to its Members, Representatives and other interested persons as official documents of the proceedings; and
- (h) exercise other powers and responsibilities as provided in these rules and make such decisions and give such directions to the Executive Secretary as will ensure that the business of the Commission is carried out effectively and in accordance with its decisions.

RULE 12

Whenever the Chairman of the Commission is unable to act, the Vice-Chairman shall assume the powers and responsibilities of the Chairman. The Vice-Chairman shall act as Chairman until the Chairman resumes his duties. Whilst acting as Chairman, the Vice-Chairman will not act as Representative.

RULE 13

In the event of the office of Chairman falling vacant due to resignation or permanent inability to act, the Vice-Chairman shall act as Chairman until the Commission's next meeting on which occasion a new Chairman shall be elected. Until the election of a new Chairman, the Vice-Chairman will not act as Representative, Alternate Representative or Adviser.

EXTRACT FROM CCAMLR-XXI, ANNEX 4, PARAGRAPHS 20 AND 21

CONTINGENCY FUND

20. At its 2001 meeting, the Commission established a Contingency Fund. Noting that this is intended to be used for necessary expenditure which has not yet been specifically authorised by the Commission, SCAF **recommended that the following definitions be agreed by the Commission for unforeseen and extraordinary expenditure as envisaged in Financial Regulation 4.5:**

‘Unforeseen expenditure’ is expenditure of which the Commission had been unaware at the time of its previous meeting, but which is necessary for the fulfilment of tasks required by the Commission to be performed, with the amount not being possible to subsume into the annual budget without inordinate disruption of the Commission’s work.

‘Extraordinary expenditure’ is expenditure the nature of which was known by the Commission at its previous meeting, but the extent of which is far greater than had been anticipated at that time, with the extra amount not being possible to subsume into the annual budget without inordinate disruption of the Commission’s work.

21. The Committee further **recommended that the following procedures should be applied for any use of the Fund:**

(i) **As soon as the Executive Secretary believes that there is a reasonable expectation of unforeseen or extraordinary expenditure, he/she will consult with the SCAF Chair and Vice-Chair to confirm that:**

- **the nature of the expenditure complies with the above definitions;**
- **the Contingency Fund has sufficient capacity to cover the expenditure;**
and
- **it is not possible to defer the decision on the use of the Fund until the next meeting of the Commission.**

- (ii) The Executive Secretary will advise all Members of any intended use of the Fund.**
- (iii) Any Member that considers such expenditure from the Fund to be inappropriate shall advise the Chair accordingly, including any proposal for alternative action.**
- (iv) The Commission Chair shall consult with the SCAF Chair and the Executive Secretary. If the three parties agree with the Member's advice, then this shall be acted upon and Members will be advised accordingly. If the parties fail to come to agreement on the Member's advice, and if time permits, then Members will be asked to decide on the issue in accordance with Rule 7. If there is insufficient time for such a decision, or if Members are unable to reach consensus, then the Executive Secretary, in consultation with the Commission Chair and the SCAF Chair and Vice-Chair, shall determine to what extent to use the Fund.**
- (v) Any actual expenditure from the Fund will be advised to Members immediately.**
- (vi) The Executive Secretary will report to the subsequent meeting of the Commission any expenditure from the Fund, including related expenditure from the current and future budgets of the General Fund, and proposals to re-establish the Contingency Fund at its former level.**

INVESTMENT PRINCIPLES

- (i) The primary consideration in determining the investment strategy for the Commission shall be to safeguard the funds of the Commission. Funds shall be invested in such a way as to place primary emphasis on avoiding the erosion of principal funds while ensuring the liquidity necessary to meet the Commission's cash flow requirements.
- (ii) Investment of moneys not needed for the immediate requirements of the Commission shall be conservative and low risk in nature. Investments shall be restricted to cash equivalents, term deposits and government bonds. Investments that attract a government guarantee shall be limited to terms of not more than 24 months unless otherwise agreed by the Commission. Investments that do not attract a government guarantee shall be restricted to those institutions assessed by the Australian Prudential Regulation Authority (APRA) as an Authorised Deposit-taking Institution (ADI) and shall be limited to terms of not more than 12 months unless otherwise agreed by the Commission.
- (iii) To minimise risk, the investment portfolio of the Commission shall offer diversity across institutions, instruments and maturity dates. Where a government guarantee is available, investments in ADIs other than Australian-owned banks shall be limited to the amount guaranteed.
- (iv) The Executive Secretary will provide quarterly interim financial reports of income (including interest income) and expenditure to Members. The quarterly reports will include a report on the status and performance of investments as well as providing Members with any other relevant advice or information pertaining to the financial management of the Commission.
- (v) The Executive Secretary will inform Members of significant or unforeseen financial events, particularly where such events may have a substantial impact on the current or future financial position of the Commission, as soon as possible from when the Executive Secretary becomes aware of such events.
- (vi) Investments shall be recorded in an investment ledger held by the Secretariat, which shall show all relevant details for each investment, including face value, cost, date of maturity, interest rate, place of deposit, proceeds of sale, income earned and whether the investment attracts a government guarantee.

III. In order to verify compliance with conservation measures adopted under the Convention, Inspectors designated by Members shall be entitled to board a fishing or fisheries research vessel in the area to which the Convention applies to determine whether the vessel is, or has been, engaged in scientific research, or harvesting, of marine living resources².

¹ As adopted at CCAMLR-VII (paragraph 124) and amended at CCAMLR-XII (paragraphs 6.4 and 6.8), CCAMLR-XIII (paragraph 5.26), CCAMLR-XIV (paragraphs 7.22, 7.26 and 7.28), CCAMLR-XV (paragraph 7.24), CCAMLR-XVI (paragraph 8.14), CCAMLR-XVIII (paragraph 8.25), CCAMLR-XXV (paragraph 12.73) and CCAMLR-XXVI (paragraphs 13.79 to 13.83).

System of Inspection

- (a) Inspection may be carried out by designated Inspectors from vessels of the Designating Member.
- (b) Ships carrying Inspectors shall carry a special flag or pennant approved by the Commission to indicate that the Inspectors on board are carrying out inspection duties in accordance with this system.
- (c) Such Inspectors may also be placed on board vessels, with the schedule of embarkation and disembarkation of Inspectors subject to arrangements to be concluded between the Designating Member and the Flag State.

IV. Each Contracting Party shall provide to the Secretariat:

- (a) One month before the commencement of the research cruise and in accordance with Conservation Measure 24-01 'The Application of Conservation Measures to Scientific Research', the names of all vessels intending to conduct fishing for research purposes.
- (b) Within seven days of the issuance of each permit or licence in accordance with Conservation Measure 10-02 'Licensing and Inspection Obligations of Contracting Parties with regard to their Flag Vessels Operating in the Convention Area', the following information about licences or permits issued by its authorities to its flag vessels authorising them to fish in the Convention Area:
 - name of the vessel;
 - time periods authorised for fishing (start and end dates);
 - area(s) of fishing;
 - species targeted; and
 - gear used.
- (c) By 31 August, an annual report of steps it has taken to implement the inspection, investigation and sanction provisions of Conservation Measure 10-02 'Licensing and Inspection Obligations of Contracting Parties with regard to their Flag Vessels Operating in the Convention Area'.

- ### V. (a)
- Any vessel present in the Convention Area for the purpose of harvesting or conducting scientific research on marine living resources shall, when given the appropriate signal in the International Code of Signals by a ship carrying an Inspector (as signified by flying the flag or pennant referred to above), stop or

take other such actions as necessary to facilitate the safe and prompt transfer of the Inspector to the vessel, unless the vessel is actively engaged in harvesting operations, in which case it shall do so as soon as practicable.

- (b) The Master of the vessel shall permit the Inspector, who may be accompanied by appropriate assistants, to board the vessel.

VI. Inspectors shall have the authority to inspect catch, nets and other fishing gear as well as harvesting and scientific research activities, and shall have access to records and reports of catch and location data insofar as necessary to carry out their functions.

- (a) Each Inspector shall carry an identity document issued by the Designating Member in a form approved or provided by the Commission stating that the Inspector has been designated to carry out inspection in accordance with this system.
- (b) On boarding a vessel, an Inspector shall present the document described in paragraph VI(a), above.
- (c) The inspection shall be carried out so that the vessel is subject to the minimum interference and inconvenience. Inquiries shall be limited to the ascertainment of facts in relation to compliance with the Commission measures in effect for the Flag State concerned.
- (d) Inspectors may take photographs and/or video footage as necessary to document any alleged violation of Commission measures in force.
- (e) Inspectors shall affix an identification mark approved by the Commission to any net or other fishing gear which appears to have been used in contravention to conservation measures in effect and shall record this fact in the reports and notification referenced in paragraph VIII, below.
- (f) Inspectors shall be provided appropriate assistance by the Master of the vessel in carrying out their duties, including access as necessary to communications equipment.
- (g) Each Contracting Party, subject to and in accordance with their applicable laws and regulations, including rules governing the admissibility of evidence in domestic courts, shall consider and act on reports from Inspectors of Designating Members under this scheme on the same basis as reports from its own inspectors, and both Contracting Party and designating Member concerned shall cooperate in order to facilitate judicial or other proceedings arising from any such report.

System of Inspection

VII. If a vessel refuses to stop or otherwise facilitate transfer of an Inspector, or if the Master or crew of a vessel interferes with the authorised activities of an Inspector, the Inspector involved shall prepare a detailed report, including a full description of all the circumstances and provide the report to the Designating Member to be transmitted in accordance with the relevant provisions of paragraph IX.

- (a) Interference with an Inspector or failure to comply with reasonable requests made by an Inspector in the performance of his duties shall be treated by the Flag State as if the Inspector were an Inspector of that State.
- (b) The Flag State shall report on actions taken under this paragraph in accordance with paragraph XI, below.

VIII. Inspectors shall complete the approved CCAMLR inspection report form.

- (a) The Inspector shall provide a written explanation, on the inspection report form, of any alleged violation of Commission measures in force. The Inspector shall allow the Master of the vessel being inspected to comment, on the inspection report form, about any aspect of the inspection.

- (f) Fifteen days after the transmission of the completed inspection form to the Flag State, the CCAMLR Executive Secretary shall transmit that form to Members together with comments or observations, if any, received from the Flag State.

IX. Any supplementary reports or information, or any report prepared in accordance with paragraph VII, shall be provided by the Designating Member to the CCAMLR Executive Secretary. The latter shall provide such reports or information to the Flag State, which shall be then afforded the opportunity to comment. The CCAMLR Executive Secretary shall transmit the reports or information to Members within 15 days following their receipt from the Designating Member, and the observations or comments, if any, received from the Flag State.

X. A fishing vessel present in the area of application of the Convention shall be presumed to have been engaged in scientific research, or harvesting, of marine living resources (or to have been commencing such operations) if one or more of the following four indicators have been reported by an inspector, and there is no information to the contrary:

- (a) fishing gear was in use, had recently been in use or was ready to be used, e.g.:
 - nets, lines or pots were in the water;
 - trawl nets and doors rigged;

 - log indicated gear in the water;

- (d) fish (or their products) which occur in the Convention Area were stowed on board.

XI. If, as a result of inspection activities carried out in accordance with these provisions, there is evidence of violation of measures adopted under the Convention, the Flag State shall take steps to prosecute and, if necessary, impose sanctions.

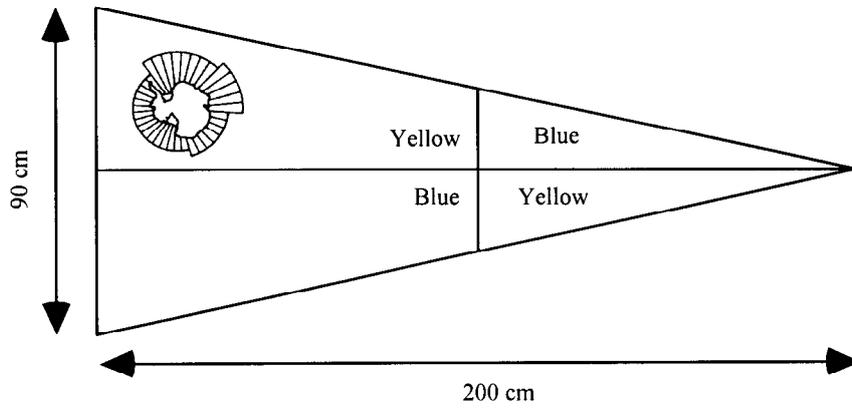

System of Inspection

XII. The Flag State shall, within fourteen days of the laying of charges or the initiation of proceedings relating to a prosecution, inform the Secretariat of this information, and shall continue thereafter to inform the Secretariat as the prosecution develops or is concluded. In addition, the Flag State shall at least once a year report to the Commission, in writing, about the results of such prosecutions and sanctions imposed. If a prosecution has not been completed, a progress report shall be made. When a prosecution has not been launched, or has been unsuccessful, the report shall contain an explanation.

XIII. Sanctions applied by Flag States in respect to infringements of CCAMLR provisions shall be sufficiently severe as to effectively ensure compliance with CCAMLR conservation measures and to discourage infringements and shall seek to deprive offenders of any economic benefit accruing from their illegal activities.

XIV. The Flag State shall ensure that any of its vessels which have been found to have contravened a CCAMLR conservation measure do not carry out fishing operations within the Convention Area until they have complied with the sanctions imposed.

INSPECTION PENNANT

FISHING GEAR IDENTIFICATION MARK

A standard marker has been approved for identifying fishing gear that has been judged by an Inspector to be contrary to standards set by the Commission. **TEXT OF THE CCAMLR SCHEME OF
INTERNATIONAL SCIENTIFIC OBSERVATION**

**TEXT OF THE CCAMLR SCHEME OF
INTERNATIONAL SCIENTIFIC OBSERVATION¹**

A. Each Member of the Commission may designate observers referred to in Article XXIV of the Convention.

- (a) The Commission will specify activities of scientific observers on board vessels. These activities are described in Annex I and may be modified taking into account advice from the Scientific Committee. Additional scientific activities may be agreed between the Receiving and Designating Member States provided these do not conflict with, or detract from, the activities specified by the Commission.
- (b) The Member wishing to place scientific observers on board a vessel of another Member shall be referred to as the 'Designating Member' and the Member who accepts a scientific observer on board its vessel shall be referred to as the 'Receiving Member'. Scientific observers in this scheme shall be nationals of the Designating Member and shall conduct themselves in accordance with the customs and order existing on the vessel on which they are operating.
- (c) Members shall designate adequately qualified scientific observers who shall be familiar with the harvesting and scientific research activities to be observed, the provisions of the Convention and the measures adopted under it and who are adequately educated and trained to carry out competently the duties of scientific observers as required by the Commission.
- (d) Scientific observers shall be able to communicate in the language of the Flag State of the vessels on which they carry out their activities.
- (e) Scientific observers shall each carry a document issued by the Designating Member in a form approved by the Commission identifying them as CCAMLR scientific observers.
- (f) Scientific Observers shall submit to the Commission through the Designating Member, not later than one month after the completion of the observer trip or

¹ As adopted at CCAMLR-XI (paragraph 6.11) and amended at CCAMLR-XVI (paragraph 8.21) and CCAMLR-XXVII (paragraph 13.68).

Observation Scheme

after the return of the observer to his/her home country, all observer logbooks and reports of each observation assignment undertaken, using the observation formats approved by the Scientific Committee as they appear in the *Scientific Observers Manual*. The Secretariat shall send a copy of the scientific observer's report to the Receiving Member within 14 days of receipt. The language of the scientific observer's report shall be in one of the Commission's official languages, as agreed upon in the bilateral agreement between the Designating and Receiving Members.

- (g) The Designating Member, in consultation with the scientific observer, shall be responsible for providing clarification about data collected, observations made, and incidents that may have occurred during deployment.
- (h) Upon review of the observer's report, the Receiving Member shall advise the Secretariat and the Designating Member of any discrepancies as soon as they are identified. In the event of such notification, the Designating and Receiving Members will make every effort to resolve the issue. If the Designating and Receiving Members notify the Secretariat that they are unable to resolve such issues, the Secretariat will note any unresolved discrepancy.

B. In order to promote the objectives of the Convention, Members agree to take on board their vessels engaged in scientific research or harvesting of marine living resources designated scientific observers, who shall operate in accordance with bilateral arrangements concluded.

Such a bilateral arrangement shall include the following principles:

- (a) The scientific observers shall be given the status of ship's officers. Accommodation and meals for scientific observers on board shall be of a standard commensurate with this status.
- (b) Receiving Members shall ensure that their vessel operators cooperate fully with the scientific observers to enable them to carry out the tasks assigned to them by the Commission. This will include allowing scientific observers access to data, equipment and those operations of the vessel necessary to fulfil their duties as required by the Commission.
- (c) Receiving Members shall ensure that their vessel operators cooperate fully with scientific observers to enable the observers to carry out their data collection duties as specified in the *Scientific Observers Manual* without impediment or influence. Arrangements shall be made for messages to be sent and received on

behalf of scientific observers using the vessel's communication equipment and operator. Reasonable costs of such communications shall normally be borne by the Designating Member. After notifying the Master, scientific observers shall be allowed such access as is necessary to undertake observation duties, including the vessel's navigation equipment and personnel to determine the vessel's position, course and speed.

- (d) Receiving Members shall take appropriate action with respect to their vessels to ensure safe working conditions, the protection, security and welfare of scientific observers in the performance of their duties, and to provide them with medical care and safeguard their freedom and dignity in adherence to all pertinent international maritime regulations.
- (e) For transfers at sea, Members shall: (i) ensure that their vessel operators conduct transfers of observers under safe conditions and with the agreement of the observers (ii) conduct the transfer in a manner which maximises the safety of observers and crew during the procedure, and (iii) provide experienced crew members to assist observers during any transfer which is made.
- (f) Arrangements involving the transportation and boarding of scientific observers shall be organised so as to minimise interference with harvesting and research operations.
- (g) Scientific observers shall provide to the relevant masters copies of such records, prepared by the scientific observers, as the masters may wish to retain.
- (h) Designating Members shall ensure that their scientific observers carry insurance satisfactory to the Parties concerned.
- (i) Transportation of scientific observers to and from boarding points shall be the responsibility of the Designating Member.
- (j) Unless otherwise agreed, the equipment, clothing and salary and any related allowances of a scientific observer shall normally be borne by the Designating Member. The vessel of the Receiving Member shall bear the cost of on-board accommodation and meals of the scientific observer.
- (k) The bilateral arrangement shall address such other matters as deemed appropriate by both the Designating and Receiving Members, such as liability and confidentiality.

Observation Scheme

C. For each observer deployed, the Designating Members shall provide the following information to the Secretariat prior to the deployment of the observer:

- (a) date of signing the arrangement;
- (b) name and flag of the vessel receiving the observer;
- (c) Member designating the observer;
- (d) area of fishing (CCAMLR statistical area, subarea, division);
- (e) type of data to be collected by the observer and submitted to the Secretariat (e.g. by-catch, target species, biological data);
- (f) expected dates of the start and end of the observation program;
- (g) expected date of returning the observer to his/her home country.

D. In order to maintain the objectivity and scientific integrity of the data, Designating Members, Receiving Members, the vessels on which scientific observers are deployed and the scientific observers themselves, shall uphold and promote the following provisions:

- (a) A scientific observer appointed in accordance with the CCAMLR Scheme of International Scientific Observation shall not:
 - (i) contravene the requirements established in the laws and regulations of the Receiving Member or violate general rules of behaviour and safety that apply to all vessel personnel, provided such rules do not interfere with the duties of the observer under this Scheme, as stipulated in the bilateral arrangement between the Designating and the Receiving Members;
 - (ii) inhibit the proper functioning and fishing activities of the vessel;
 - (iii) solicit or accept, directly or indirectly, any gratuity, gift, favour, loan, or anything of monetary value from anyone who conducts fishing or fish processing activities that are regulated by CCAMLR, or who has interests that may be substantially affected by the performance or non-performance of the official duties of scientific observers, with the exception of meals, accommodations, or salary when provided by the vessel;

- (iv) have been convicted of a serious criminal offense for five years prior to appointment as an observer;
 - (v) engage in any illegal actions or any other activities that would reflect negatively on his/her image as a professional scientist, on other scientific observers, on the integrity of data collection, or on CCAMLR as a whole;
 - (vi) have any financial interest in, or relationship with, any vessel or business harvesting or processing products from a CCAMLR fishery.
- (b) The owner, Master, agent, and crew of a vessel on which a scientific observer is deployed shall not:
- (i) offer a scientific observer, either directly or indirectly, any gratuity, gift, favour, loan, or anything of monetary value, except for meals, accommodations or salary when provided by the vessel;
 - (ii) intimidate, or interfere with the duties of a scientific observer;
 - (iii) interfere with or bias the sampling procedure employed by a scientific observer;
 - (iv) tamper with, destroy, or discard a scientific observer's collected samples, equipment, records, photographic film, papers, or effects without the express consent of the observer;
 - (v) prohibit, impede, threaten, or coerce, an observer from/into collecting samples, making observations, or otherwise performing the observer's duties; or
 - (vi) harass a scientific observer.
- (c) Deployment limitations. Designating Members shall seek, to the extent possible, to avoid having a scientific observer appointed in accordance with the CCAMLR Scheme of International Scientific Observation undertake multiple consecutive trips on the same vessel.

Observation Scheme

- (d) Confidentiality. Designating Members shall require that a scientific observer appointed in accordance with the CCAMLR Scheme of International Scientific Observation shall not:
 - (i) disclose verbal, written, or other evidence or observations made on-board a vessel, or observations made in a processing facility, including data or commercially sensitive vessel-specific fishing, processing, and marketing information, to any person except to the Secretariat and as provided for in the bilateral arrangement;
 - (ii) take data or observer logbooks from one vessel onto another, except that if an observer is unable to submit data before being redeployed on another vessel, the scientific observer shall take reasonable steps to safeguard the data and observer logbooks.
- E.

The Receiving Member will notify the Designating Member and the Commission of any appropriate action taken.
- F. Members who have designated scientific observers will take the initiative in implementing assignments identified by the Commission.
- G. The scope of functions and tasks described in Annex I should not be interpreted to suggest in any way the number of required observers which will be accepted on board a vessel.

**FUNCTIONS AND TASKS OF INTERNATIONAL SCIENTIFIC OBSERVERS
ON BOARD VESSELS ENGAGED IN SCIENTIFIC RESEARCH OR
HARVESTING OF MARINE LIVING RESOURCES**

1. The function of scientific observers on board vessels engaged in scientific research or harvesting of marine living resources is to observe and report on the operation of fishing activities in the Convention Area with the objectives and principles of the Convention for the Conservation of Antarctic Marine Living Resources in mind.

2. In fulfilling this function, scientific observers will undertake the following tasks, using the observation formats approved by the Scientific Committee:
 - (i) record details of the vessel's operation (e.g. partition of time between searching, fishing, transit etc., and details of hauls);

 - (ii) take samples of catches to determine biological characteristics;

 - (iii) record biological data by species caught;

 - (iv) record by-catches, their quantity and other biological data;

 - (v) record entanglement and incidental mortality of birds and mammals;

 - (vi) record the procedure by which declared catch weight is measured and collect data relating to the conversion factor between green weight and final product in the event that catch is recorded on the basis of weight of processed product;

 - (vii) prepare reports of their observations using the observation formats approved by the Scientific Committee and submit them to CCAMLR through the Designating Member;

 - (viii) assist, if requested, the captain of the vessel in the catch recording and reporting procedures;

 - (ix) undertake other tasks as may be decided by mutual agreement of the parties involved;

Observation Scheme

- (x)¹ collect and report factual data on sightings of fishing vessels in the Convention Area, including vessel type identification, position and activity;
- (xi)² collect information on fishing gear loss and garbage disposal by fishing vessels at sea.

¹ Added in accordance with CCAMLR-XVII (paragraph 8.16). The Commission decided to review the effectiveness and the need to continue this activity after a two-year trial period (CCAMLR-XVII, paragraph 8.17).

² Added in accordance with CCAMLR-XVIII (paragraph 8.21).

2. Such data may be analysed in respect of:
 - (a) work specifically outlined and endorsed by the Commission or Scientific Committee;
 - (b) work not specifically endorsed by the Commission or the Scientific Committee.
3. Inclusion of data, analyses or results from data held in the CCAMLR Data Centre into Working Papers, Background Papers, and any other documents tabled at meetings of the Commission, Scientific Committee or one of their subsidiary bodies does not constitute publication and therefore is not a release into the public domain.
4. Inclusion of data held in the CCAMLR Data Centre into the published reports of the Commission, Scientific Committee, Working Groups, *CCAMLR Science*, the *Statistical Bulletin* or any other CCAMLR publication constitutes release into the public domain.
5. Inclusion of data held in the CCAMLR Data Centre in any publication outside CCAMLR constitutes release into the public domain.

* These rules replace those adopted at the Eleventh Meeting of the Commission (CCAMLR-XI, paragraph 4.35). The current 'Rules for Access to CDS Data' (CCAMLR-XIX, paragraph 5.23) should remain in place alongside the new standard rules until such times as all aspects of CDS data handling are duly taken into account in the new standard rules (CCAMLR-XXII, paragraph 7.22).

Access to CCAMLR Data

6. Subject to paragraphs (1) to (3), originators/owners of data have the right to:
 - (a) be consulted (including assignation of authorship) on the preparation, if necessary including publication, of documents describing analyses and interpretation of their data;
 - (b) approve the level of detail revealed in documents using their data;

7. Requests to the Secretariat for access and/or use of data maintained by the CCAMLR Data Centre by individual Member scientists/officials shall be approved in writing as appropriate by that Member's Commission Representative, Scientific Committee Representative, or CDS Officer in consultation with the Commission Representative. Members are responsible for informing individual scientists or individuals requesting data of the rules governing access and use of CCAMLR data and for obtaining agreement to comply with such rules.

8. Requests in support of analyses endorsed under (2)(a) above should include the type of data requested, the degree of data aggregation required, the spatial and temporal detail required, and the anticipated format to be used in presenting results of the analyses. For such requests, the Secretariat shall ensure that each request meets the conditions of the approval granted for the original endorsement, and, if so, release the data and inform the data owner(s)/originator(s) accordingly. Release of data by the Secretariat to the requestor does not constitute permission to publish or release data into the public domain. Such permission remains a matter to be determined between the requestor and the data originator(s).

9. Requests in support of non-endorsed analyses under (2)(b) above should include the information listed in (8) as well as details of the analytical procedures to be used and the opportunity for data owner(s)/originator(s) to be involved. For such requests, the Secretariat shall be satisfied that each request contains the required information before forwarding it to the data originator(s) for approval within a specified time period. Once approval has been received the Secretariat shall release the data. Release of data does not constitute permission to publish or for release into the public domain. Such permission remains a matter to be determined between the requestor and the data owner(s)/originator(s).

10. If approval for data release under (9) is not forthcoming within the specified period, the Secretariat shall initiate and facilitate consultation between the data requestor and data owner(s)/originator(s). The Secretariat shall not release data without the written approval of the data owner(s)/originator(s). Failure to achieve agreement shall be brought to the attention of the Scientific Committee and Commission.

Non-Contracting Parties

3. Non-Contracting Parties shall be given only limited access to data in order to validate individual shipments (both to that country, and from that country). Further access shall not be provided and password-protected access and other precautions shall be taken as appropriate. Non-Contracting Parties should advise the Secretariat of their national CDS contact point(s) before any access to CDS information is granted.

* The Commission took into account the advice of the Standing Committee on Observation and Inspection (SCOI) that in considering the required Rules for Access of the Scientific Committee to CDS Data, the Commission should take into account the objectives of the data use, conditions for its release and its format (CCAMLR-XIX, Annex 5, paragraph 2.43).
