

### Abstract

This document presents the adopted record of the Tenth Meeting of the Scientific Committee for the Conservation of Antarctic Marine Living Resources held in Hobart, Australia, from 21 to 25 October 1991. Major topics discussed at this meeting include: krill resources, fish resources, other resources, ecosystem monitoring and management, marine mammal and bird populations, assessment of incidental mortality, development of approaches to conservation of Antarctic marine living resources, CCAMLR Scheme of International Scientific Observation and cooperation with other organisations. Reports of meetings and intersessional activities of subsidiary bodies of the Scientific Committee, including the Working Groups on Krill, on Fish Stock Assessment and for the CCAMLR Ecosystem Monitoring Program, are appended.
