¹ The Antarctic split-year begins on 1 July and ends on 30 June.

² Although the formal date for the dissolution of the USSR was 1 January 1992, for comparative purposes statistics are compiled here for Russia and Ukraine separately for the complete split-year, i.e. 1 July 1991 to 30 June 1992.

³ STATLANT data submitted by Japan on 21 October 1999.

Table 3: Total reported finfish catch (in tonnes) in the 1997/98 and 1998/99 split-years by area and country.

¹ 1998 calendar year

² From Macquarie Island

³ From Falkland/Malvinas Islands

⁴ From Subarea 48.3

⁵ From South African EEZ in Subareas 58.6 and 58.7 and from Subarea 48.3

⁶ From French EEZ in Division 58.5.1

⁷ From Subarea 88.1; catch consisted mostly of *D. mawsoni*

⁸ Based on the following estimates: three vessels observed in Division 58.5.1, five vessels observed in Walvis Bay and Mauritius, assumed that eight vessels were fishing at some time during the season taking into account that some of these vessels were also involved in the regulated fishery in Subarea 48.3 for part of the year, effort – 940 days fishing, mean daily catch rate – 6 tonnes.

⁹ Based on the following estimates: four vessels observed or arrested in Division 58.5.1, three vessels landing catches in Walvis Bay, assumed that seven vessels were fishing at some time during the season, effort – 960 days fishing, mean daily catch rate – 6 tonnes.

¹⁰ Based on the following estimates: one vessel sighted in Division 58.5.1, probably fishing for the whole season, effort – 200 days fishing, mean daily catch rate – 6 tonnes.

¹¹ Based on the following estimates: one vessel landing catch in Walvis Bay, assumed the vessel was fishing for part of the season when not involved in the regulated fishery in Subarea 48.3, effort – 133 days fishing, mean daily catch rate – 6 tonnes.

NB: An additional unreported catch of 1 200 tonnes was attributed to Portugal (European Community) in the 1997/98 split-year based on two vessels sighted in Division 58.5.1 fishing for part of the season (see SC-CAMLR-XVII, Annex 5, Table 3).

Table 6: The coordinates of eight fishing grounds in Subareas 58.6, 58.7 and Division 58.4.4 (Figure 1).

| Grid | Subarea/ Division | Grid Coordinates | | | | Length (n miles) | | Seabed Area (km ²) 0–2 000 m |
