

RESOLUTION 17/XX
Use of VMS and other Measures for the Verification of
CDS Catch Data for Areas Outside the Convention Area,
in particular, in FAO Statistical Area 51

The Commission,

Recognising the need to continue to take action, using a precautionary approach, based on the best scientific information available, in order to ensure the long term sustainability of *Dissostichus* spp. stocks in the Convention Area,

Concerned that the Catch Documentation Scheme for *Dissostichus* spp. (CDS) could be used to disguise illegal, unregulated and unreported (IUU) catches of *Dissostichus* spp. in order to gain legal access to markets,

Concerned that any misreporting and misuse of the CDS seriously undermines the effectiveness of CCAMLR conservation measures,

1. Urges States participating in the CDS to ensure that *Dissostichus* Catch Documents (DCDs) relating to landings or imports of *Dissostichus* spp., when necessary, are checked by contact with Flag States to verify that the information in the DCD is consistent with the data reports derived from an automated satellite-linked Vessel Monitoring System (VMS)¹.
2. Urges States participating in the CDS, if necessary to that end, to consider reviewing their domestic laws and regulations, with a view to prohibiting, in a manner consistent with international law, landings/transshipments/imports of *Dissostichus* spp. declared in a DCD as having been caught in FAO Statistical Area 51 if the Flag State fails to demonstrate that it verified the DCD using automated satellite-linked VMS derived data reports.
3. Requests the Scientific Committee to review the data concerning the areas where *Dissostichus* spp. occur outside the Convention Area and the potential biomass of *Dissostichus* spp. in such areas, in order to assist the Commission in the conservation and management of *Dissostichus* stocks and in defining the areas and potential biomasses of *Dissostichus* spp. which could be landed/imported/exported under the CDS.

¹ In this regard, verification of the information in the relevant DCD shall not be requested for the trawlers as described in Conservation Measure 170/XX, paragraph 14.
