

**CONSERVATION MEASURE 23-06 (2005)**  
**Data Reporting System for Krill Fisheries**

Species	krill
Area	all
Season	all
Gear	all

1. This conservation measure is invoked by the conservation measures to which it is attached.
2. Catches shall be reported in accordance with the monthly catch and effort reporting system set out in Conservation Measure 23-03 according to the statistical areas, subareas, divisions or any other area or unit specified with catch limits in Conservation Measures 51-01, 51-02 and 51-03.
3. At the end of each fishing season each Contracting Party shall obtain from each of its vessels the haul-by-haul data required to complete the CCAMLR fine-scale catch and effort data form (trawl fisheries Form C1). It shall transmit those data in the specified format to the Executive Secretary not later than 1 April of the following year.
