

**SCHEDULE OF
CONSERVATION MEASURES
IN FORCE
2009/10 SEASON**

(As amended by the Commission at the Twenty-eighth Meeting,
26 October to 6 November 2009)

This schedule lists conservation measures adopted by the Commission in accordance with Article IX of the Convention on the Conservation of Antarctic Marine Living Resources.

Each conservation measure is identified by a numeric code consisting of a leading 2-digit code designating the category to which the measure belongs, and a trailing 2-digit code uniquely identifying the measure within that category; the year in which the latest version of the measure was adopted or revised follows in brackets. Each resolution is identified by a consecutive number followed by the number (Roman numeral) of the meeting when the latest version of the resolution was adopted or revised.

All cross references to conservation measures in this publication refer to measures in force unless clearly specified otherwise.

The texts of the CCAMLR System of Inspection and the CCAMLR Scheme of International Scientific Observation are appended.
