

RESUME DES STATISTIQUES DE PECHE

DESCRIPTION DU RESUME

La base de données de la CCAMLR sur les statistiques de pêche repose sur les données de type STATLANT 08A et 08B. Celles-ci comprennent les relevés des prises et de l'effort correspondant concernant les espèces marines tels qu'ils sont transmis par les nations engagées dans des activités de pêche pour toutes les opérations commerciales menées dans l'océan Austral, c'est-à-dire dans les zones principales de pêche 48, 58 et 88 depuis la saison de pêche 1969/70. Des lacunes demeurent en ce qui concerne les données obtenues par le Secrétariat. La situation quant à la disponibilité des données utilisées dans ce résumé est décrite au Tableau 1. Ces données ont été tirées de la version 14 des données de base STATLANT 8A et de la version 16 des données de base STATLANT 8B.

Unités de mesure

2. Les chiffres de prise indiqués se rapportent aux prises nominales ou équivalent en poids vif des quantités débarquées (c'est-à-dire les quantités débarquées sur une base de poids global ou humide). Dans certains cas, ceux-ci ont pu être établis en utilisant les taux de rendement (facteurs de conversion) appliqués aux quantités débarquées. Les prises nominales sont mesurées en tonnes métriques.

Années fractionnées

3. Les prises ont été calculées sur la base de périodes de relevés de douze mois désignées sous le nom d'années fractionnées. L'année fractionnée antarctique commence le 1er juillet et se termine le 30 juin.

Zones de pêche, sous-zones et divisions

4. Au cours de la réunion de 1984 du Comité Scientifique de la CCAMLR, de nouvelles sous-zones et des divisions plus petites d'une sous-zone existante ont été recommandées pour la déclaration des activités de pêche de 1984/85. Ces modifications ont été communiquées à la FAO qui les a acceptées. Les limites de toutes les zones, sous-zones et divisions de l'Antarctique sont indiquées sur la Carte 1.

Codes Nationaux

5. Les codes de la FAO sont utilisés pour l'identification des nations engagées dans des opérations de pêche. Ces codes sont indiqués au Tableau 3.
